August Hornung is back from his summer vacation which he spent with his college. The greater part of the time was spent in the mountains of Colorado where he was the guest of his youngest daughter, Mrs. Kendrick, and he found the mountain air and altitude delightful. But when he changed from that to Rio Grande City, Texas, he got the full benefit of the mid-summer heat of Texas. All in all, he had a most delightful visit with his daughters and brings back to his work in the Collector's office renewed strength and vigor and is ready for the strenuous job of issuing tax receipts, the season for which soon begins.

Judge and Mrs. H. E. Haass and daughter, Irene, and Misses Lucille, Alleen and Annie Mae de Montel spent Sunday at the Boerne Fair. Judge Haass and wife and daughter and Miss Alleen de Montel, after visiting the Fair, continued on towards Kerrville on a week's camping trip.

Mrs. C. O. Wood and grandson, Wood Cameron, who spent the summer touring the large cities of the North and East, arrived here from their last stopping place, Lexington, Ky., and after a short visit with Mrs. Edw. Cameron, left Monday for an outing at Corpus Christi.

SAVE TIME AND MONEY

—When you talk over the telephone from Hondo to San Antonio—

Use The Two-Number Service

It's Quicker and Cheaper.

There's no red-tape about the Two-Number Service—just as simple as placing a local call.

If you know the number you want to call, just tell the operator as you would with a local call; hold the receiver, as you'll have a connection almost instantly.

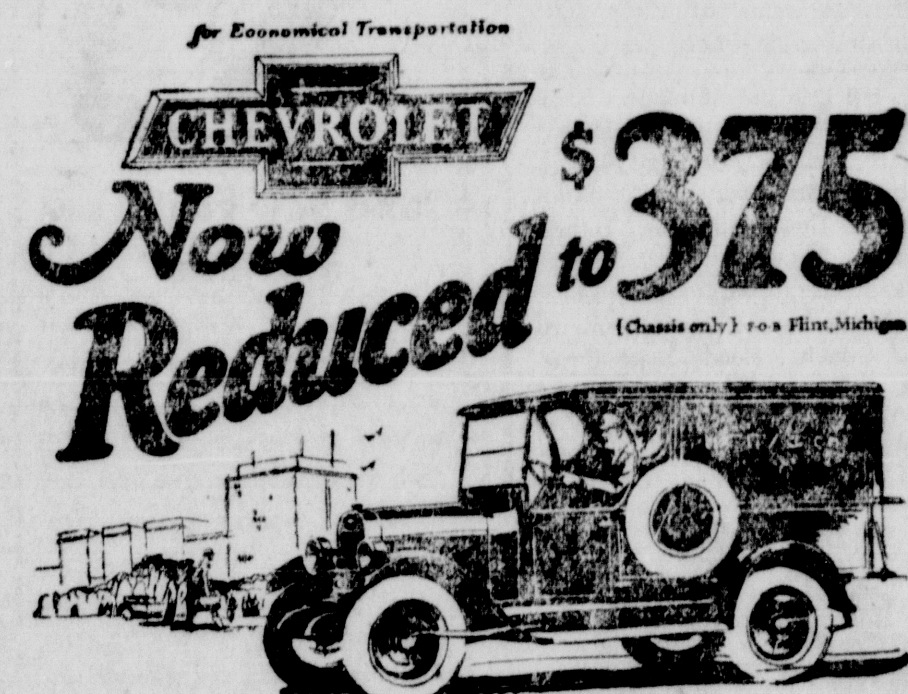

If you don't know the number, ask "Information" and proceed as with above.

Isn't that very simple? You save time—which means money saved.

Hundreds use the Two-Number Service regularly and they recommend it most highly. Try it next time you have a call.

By Walter L. Monk.

Wood ashes are probably the most perfect and satisfactory fertilizer known for fruit trees and most plants. Fruit trees need lots of potash and phosphorous and wood ashes contain more of these elements than probably any other fertilizer. When spread around the roots of trees it helps to conserve moisture, furnishes the trees with potash and phosphorous, keeps the soil in a loose condition and well aerated, keeps down weeds around the roots of the tree and seems to prevent insects and rodents from injuring the trees. On some farms the soil is suitable for only one or two kinds of fruit to be grown. If the orchard is only a small family size, the soil for a few trees can be changed for any kind of fruit growing, by the addition of ashes, humus.

Unleached wood ashes contain about 100 pounds of potash, about 40 pounds of phosphoric acid, and about 600 pounds of lime for the ton, according to a noted chemist at the Ohio Experiment Station. According to this, unleached wood ashes are a valuable fertilizer, as thirty-seven per cent is plant food, or 740 pounds to the ton. As the potash in ashes is easily soluble it must be kept under cover or the potash will leach out. Wood ashes should not be mixed with organic fertilizer as chicken manure or stable fertilizer, for the lime in the ashes has an effect on the nitrogen in the fertilizer that causes it to escape in the air.

It is estimated that a cord of hard wood will produce about 40 pounds of ashes, and a cord of soft wood will produce a little less, and have a third less potash content than the ashes of hard-wood. Coal ashes, clinkers and flue dust has little or no fertilizer value, and are entirely different from wood ashes. Their chief value if for use on heavy soils is making it more loose and porous, and on light sandy land it makes it tighter and more compact.

As ashes contain more potash than phosphorous, best results are obtained when using ashes, if the two elements are balanced in some way.

TEXAS ROOT ROT REDUCED BY TWO YEARS' CLEAN FALLOW

Of the many methods tried for the control of Texas root rot, a destructive disease of cotton, alfalfa, and numerous other crops in Texas and some of the irrigated valleys of the Southwest, allowing the land to lie idle with clean culture for two seasons promises to be the most practicable, according to the United States Department of Agriculture. Investigations were started in 1907 and conducted at the department field stations in Texas and Arizona.

Cotton root rot is caused by a fungus living in the soil. It was considered that the disease might survive on the roots of grasses or other plants which it does not kill. This belief led to the clean fallow tests. Two years of clean fallow resulted in the production of a normal crop of cotton unfested at any point in the test plot, while some infestation still remained in the plot fallowed but one year. While these tests are favorable to clean fallow as a means of eradicating the infestation, the method must be regarded as still in the experimental stage.

Tests made at Sacaton, Ariz., demonstrated that small isolated areas of Texas root-rot infestation could be controlled by saturating the infested soil with formaldehyde (1 to 100 solution). A small plot, on which 92 per cent of the cotton plants had died of root rot, was irrigated with this solution by means of a street-sprinkling tank and later by 2 acre-inches of irrigation water. The cottonseed was planted five days later. The entire area infested at the end of the season amounted to only 6.9 per cent. This method may prove to be useful for small isolated spots of infestation occurring on a valuable piece of land. Also it was found in Arizona that root-rot injury to cotton was reduced by the application of barnyard manure.

CARE OF SHIPPED HATCHING EGGS.

By Walter L. Monk.

Sometimes eggs which have been shipped a distance fail to give satisfaction to the buyer. A man who buys eggs should expect to take certain risks that the buyer also has to take. Eggs properly packed for shipment will arrive resting on the end and the first thing to do upon their arrival is to unpack and lay each egg upon its side and let lie for twenty-four hours before setting.

After standing edgewise for several days the yolks will be all on one side of the eggs, and by letting them rest a few hours the yolks will spread to their original shape. As a good hatch depends somewhat upon clean surroundings have a clean nest ready for them or if the incubator needs it, disinfect it.

Eggs should be shipped in a basket with a cushion of excelsior. Each egg should be wrapped in paper and then wrapped in excelsior. Excelsior being of a spongy nature, eggs can be shipped quite a distance. Not over fifty eggs should be shipped in one box or basket, so that there will be plenty of room to prevent breaking. Even when carefully packed, eggs will not stand too much rough handling; therefore, they should be plainly marked so that railway employees can tell what they are. In case that eggs are ruined in transportation, if it can be proved that they are carefully packed and marked plainly, claims made to the transportation company will usually be honored. Most shippers send a few more eggs than were ordered to make up for any broken eggs.

We appreciate the favor when write-ups of social, club, lodge, church, etc., affairs are handed for publication. Help us make the Herald a newsy paper.

In the Kitchen with 6 Famous Cooks

A MEATLESS MEAL, "FIT FOR COMPANY"

(Ed. Note: This is one of a special series of articles contributed by 6 Famous Cooks. Their recipes are "different." Cut them out and paste them in your cook book.)

At the Battle Creek College of Home Economics they specialize in preparing well-balanced meals which are both attractive to the eye and nutritious to eat.

Miss Margaret Allen Hall, dietitian and nutrition expert of the college, has prepared for our readers a "company" menu which is particularly palatable, even though it is absolutely meatless. Proportions are given for the serving of ten.

Eggs a la King
Glazed Sweet Potatoes
Ritzi Tomatoes
Fruit Salad a la Creme
Butterscotch Pie
Directions for each dish follow.

Eggs a la King
8 tablespoons butter
4 tablespoons minced sweet pepper
4 cups (one quart) milk
8 tablespoons flour
2 cups mushrooms (fresh or canned)
12 hard boiled eggs, cut in pieces
2 teaspoons salt
Melt butter, add pepper and mushrooms, and cook until soft. Stir in flour and add milk. Stir until thickened. Add seasoning and eggs. Heat very hot and serve on squares of toast; or pour into a baking dish, sprinkle with buttered crumbs and brown in a quick oven.

Glazed Sweet Potatoes
12 medium-sized sweet potatoes
1½ cups sugar
¾ cup water
3 tablespoons butter
Roll the sweet potatoes in salted water for ten minutes, remove the skins and cut in halves lengthwise. Arrange in a buttered pan. Make a syrup by boiling the sugar and water for three minutes. Add the butter. Brush potatoes with syrup and bake until brown, heating with remaining syrup. Serve in a hot covered dish.

Ritzi Tomatoes
Slice bread in usual manner, shape with three-inch biscuit cutter and toast. Slice ripe tomatoes, place a slice on toast, sprinkle with salt, grated cheese or cottage cheese and onion, and finely chopped pepper. Bake in hot oven until tomatoes are cooked and slightly browned.

Fruit Salad a la Creme
2 large bananas
1 pint sliced pineapple
1 pound Tokay or Malaga grapes
1 cup Cream Salad Dressing
Drain the pineapple and cut into small pieces. Peel the grapes, cut into halves and remove the seeds. Peel the bananas, scrape off the fuzzy portions, and dice. Mix with the Cream Salad Dressing and serve on a plate garnished with lettuce, or place a spoonful of fruit on the lettuce leaf with a smaller spoonful of the dressing.

Cream Salad Dressing:
2 tablespoons butter
2 tablespoons flour
1 cup cream
½ cup lemon juice
3 egg yolks
¼ teaspoon salt
2 tablespoons sugar
2 cups whipped cream
Melt the butter in a double boiler, stir in the flour and the cream (sour milk being preferable). Stir until it begins to thicken. Beat the egg yolks, add to them the salt, sugar and lemon juice, and turn into the thickened cream. Cook in a double boiler about five minutes, or until the eggs begin to thicken. Cool, and fold in the whipped cream.

Butterscotch Pie
Plain Pastry:
2 cups flour
¾ cup fat
1 teaspoon salt
Ice water
Mix salt with flour. Cut fat into flour with two knives. Add just enough ice water to hold mixture together without its being sticky. Roll lightly from center outward. This is sufficient pastry for double crusts of one large pie, or two pastry shells.

Butterscotch Filling (for two pies)
4 egg yolks
4 cups dark brown sugar
4 cups milk
1 cup flour
1 cup butter
5 teaspoons vanilla extract
Beat yolks of eggs in inside of double boiler, add milk and butter. Mix flour with sugar, and add to milk mixture. Cook until thickened. Remove from fire and cool. Fill cooked pastry shells. Cover with whipped cream or meringue.

Make a meringue with the four egg whites beaten until stiff, fold in four tablespoons powdered sugar, pile irregularly on top of the pie and bake in moderate oven until brown.

A meatless meal, yes. But who would ever miss the meat?
(Be sure to read next week's special cook-article.)

Why Long Chimneys?
Many women wonder why oil stoves with long chimneys are superior to those with short ones. It is because the long chimneys insure perfect combustion. In other words, every drop of oil is completely burned before the heat reaches the cooking. There is no chance for soot or odor.

Short chimney stoves as a rule focus the heat in one point—the very center of the burner. Long chimney stoves focus the heat on the bottom of the kettles, but diffuse it over the entire kettle bottom. That's why food cooked on long chimney stoves is better done.

Many persons are asking A. & M. College what to do about cattle flies. R. R. Reppert, Extension Entomologist, is replying by giving the Kansas Agricultural College formula, as follows:

Resin (pulverized) 2 parts
Soap shavings, 1 part
Fish oil, 1 part
Water, ½ part
Boil together until the resin is dissolved.
Add three parts more of water and boil for two minutes longer.

Then add:
Oil of Tar, 1 part
Kerosene, 1 part
Thoroughly mix and boil for 15 minutes longer.
After cooling apply to the animal as a spray. To further increase the effectiveness, add 1-3 part each of crude carbolic acid and of sulphur.

This may be irritating to animals that have been working or are overheated, and under such conditions may blister or cause the hair to fall out. This must be taken into account when applying.
It must be remembered that the control of cattle flies is very difficult and that no remedy will give perfect satisfaction. The above formula is a repellent only, and its effectiveness lessens the longer it has been sprayed on the animal. Ordinarily one application a day will give fair results but in especially bothersome times more frequent spraying is recommended.

Members of cooperative livestock shipping associations when marketing hogs can profit by observing all of the "hot weather hints" listed by the United States Department of Agriculture as necessary for best results. The list includes the following suggestions:

1. Haul or drive your hogs into shipping station in ample time to allow them to become rested and cool before loading.
2. Insist upon a clean car bedded with sand.
3. Wet down the bedding and interior of the car before loading.
4. Give only a light feeding before shipping. Heavy feeding means more body heat generated.
5. Load not more than one hour before the train is to depart.
6. Load slowly and carefully. Avoid excitement, and do not heat or bruise the animals.
7. Load not to exceed 16,000 lbs. in a standard 36-foot car during warm weather.
8. Have the cars drenched at every available point immediately after the train stops.
9. Use ice bags suspended from the car roof whenever possible. Six bags to a car will suffice.

It will pay you to watch our clubbing rates. We can sometimes make you substantial savings on the subscription price of your papers and magazines and at the same time, by subscribing through this office, you can help us extend the circulation of Farming. In this way we both profit.

A FAMOUS SOUTHERN COOK

Says

if all oil stoves sold on their working merits the Perfection oil stove would be in most every kitchen Rosa Michaelis

Southern domestic science specialist tells her experience in a recent national cooking test. Every woman who cooks will be interested in it.

THEY know how to cook in New Orleans. And that is where Miss Rosa Michaelis learned. This famous southern cook tried out the Perfection in her own kitchen. She is one of the six famous cooks who recently made a nation-wide test of this stove. Each gave it a rigorous trial. Each baked, broiled, fried and boiled—not one but a number of meals. They all agreed on the merits of the Perfection. Read what Miss Michaelis said.

Quickness is Remarkable

"I never fried a veal steak more beautifully. It retained all the juices and was a lovely, rich brown after frying only ten minutes," said Miss Michaelis. "The quickness and intensity of the heat in the long Perfection chimneys is remarkable. It's clean, too. After frying pancakes and boiling rice, the bottoms of the utensils showed no signs of soot."

Like a Gas Stove

"Everything I cooked was uniformly successful. I found the Perfection just about the same as a gas stove to work with. In some respects it was better. I prefer it to broil steak, for instance. I liked the way the top and bottom browned at the same time in the Perfection broiler."

No Delay In Refilling

"It's an absolutely safe stove. The oil tank may be refilled while burners are lighted. Once when my supply of oil ran low, my rice went right on cooking. I substituted a filled reservoir and my hands never touched the kerosene."

Roomy Cooking Surface

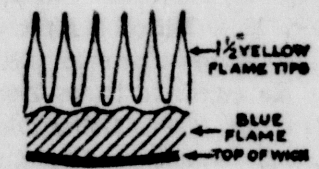

"The oven is large and the cooking surface is roomy. I stored a number of utensils on the handy base shelf. I could see my fuel in the glass reservoir and watch my baking through the glass oven door. The flame is easy to start, easy to regulate, easy to extinguish," she concluded.

Look Over the Line

He was a very pleasant caller at our office this Friday morning and says that the grass and cattle look fine, but that the cotton has been badly damaged by insects. He says he had a very enjoyable time while away.

FORTY-TWO CLUB.

Mesdames Horace Bradley, Laura Weihausen and Earl Boon entertained the Ladies' 42 Club on Thursday afternoon with a delightful "dies y seis" party.

The use of Mexican patriotic colors, red, yellow and green, in the decorative scheme and Mexican pottery as centre table decorations, suggested the approaching festival of our brown skinned neighbors.

When all had assembled the guests drew numbers from a table over which was suspended a "penate" containing the tallies. Mrs. F. H. Schweers, being the one to draw "16", was blindfolded with a red kerchief and intrusted to shatter the "penate" with a red and green wrapped "palo". So accurate was her aim that one "strike" caused a scramble for the tallies which fell in every direction. Eighteen games of "42" were played, Mrs. F. H. Schweers winning high score of 14 games, and Mrs. H. J. Meyer, Mrs. Edw. Cameron and Miss Octavia Davis tying for low score of 7 games.

The guests for the afternoon were Mesdames Ralph Russell of San Antonio, Eugene Moffield, Ray Jennings, Theo. Barnes, Theo. Cameron, H. J. Meyer, Misses Annie Mae de Montel of Camp Verde, Octavia Davis and Josephine Brucks.

The members present were Mesdames L. E. Heath, L. J. Brucks, P. Jungman, F. S. Cockrell, Edw. Cameron, Fletcher Davis, Walter Rothe, Earl Starnes, Oscar Schuele, F. H. Schweers, Misses Lillian Brucks, Loraine Heath and the hostesses.

Mrs. L. J. Brucks, Mrs. Earl Starnes and Miss Lillian Brucks will be the next hostesses.

DOES RUSHING BUSINESS.

Last Saturday was a busy day in Judge Lamm's office of Justice of the Peace. The Judge was called on in his capacity of nuptial knottier to make no less than eight hearts happy.

First he married Francisco Alanis and Anita Manchaca at the courthouse.

Later a young white couple, James W. Howard and Miss Pearl Carrie Havins, sought his friendly offices for a like purpose.

And later at his home he united Jose O. Ramirez and Juanita Ibarra and Lola Saldana and Aguilina Castillo.

If the Judge could keep up this lick his office would be so profitable that more than two would seek it.

The editor of this paper was the guest of the management of the Kendall County Fair at Boerne last Sunday and enjoyed every moment of the day. There was a record attendance, about four thousand automobiles and twelve thousand visitors being registered. The exhibits were large and surprisingly varied and complete, the farm, garden and orchard exhibits being especially noteworthy. If any one doubted the adaptability of the "hill country" to fruit growing a visit to the Boerne Fair would dispell it. The management is to be congratulated on the successful manner in which they are conducting the annual affair.

THE EDITOR FEEDS.

Willie Boehle was a caller at this office yesterday and left the editor a nice mess of fresh roasting ears. In connection with this delectable treat Mr. Boehle tells an interesting story.

He had eight acres in oats last spring. As soon as he baled the crop for feed and removed it from the ground, he plowed the field. A three-inch rain fell soon after the plowing and he planted two acres in corn mainly to supply himself with late roasting ears. Notwithstanding he has had no rain on the crop since planting, the corn has thrived and he now has more green corn than he knows what to do with.

He planted the other six acres in maize and cane and has a fine crop of grain growing on that.

It pays to make the oat stubble work.

FINE SEEDLING PECANS.

M. A. Chancey left some pecans at this office Wednesday that are as pretty specimens of native seedlings as one could wish to see.

The pecans came from the Albert Bilhartz farm near Biry and are from 15-year old trees. Fifteen years ago Mr. Bilhartz planted 40 native pecan nuts. From this planting twenty-five trees are now growing and twenty of these are bearing fruit this year. Two of the trees began bearing at the age of eight years. A peculiar thing about the pecans—yet something that is characteristic of all seedling pecans—is that the nuts on no two of the trees are alike.

The crop is unusually early this year, the nuts being fully ripe by the first of September.

NOT GIVING OUT MUCH.

A great many from Hondo have visited the Jungman well southeast of Noonan ("and Dunlay") since our report of last Saturday. They report the Shermershorn people reluctant to give out any information further than that they "have a pretty good little well."

The well was put under pump the first of the week and has been showing considerable quantity of oil of a very high quality, but there is some trouble with water and it will have to be controlled before the capacity of the well can be definitely known.

There is no doubt but what a valuable discovery has been made in this well.

OPENS DENTAL OFFICE.

Elsewhere will be found an announcement of the opening of a new dental parlor at 628 Medical Arts Building, San Antonio, by William L. Wanshaff.

Dr. Wanshaff will be remembered as a former Hondo boy. He recently graduated from the Houston College of Dentistry and has now equipped a first class office and offers his professional services to the public. He will be especially pleased to have his old Hondo friends call on him.

IMPORTANT MEETING.

A meeting of all citizens of Hondo is hereby called to convene at the Chamber of Commerce hall at 8 o'clock next Wednesday night, September 15th, for the purpose of considering ways and means of providing for a celebration of Armistice Day, November 11. Be sure and be in attendance.

Buick motor cars are now designated by their wheelbase lengths. Series One Fifteen has 114 1/2 inches of wheelbase. Series One Twenty is 120 inches from axle to axle, and Series One Twenty-eight measures 128 inches.

Many cars, several inches shorter than Buick and without advantages offered by Buick design, are priced considerably higher.

Compare the wheelbase length of other cars to Buick, before you spend your money.

Mrs. Louisa Batot.

Mrs. Louisa Batot (nee Brieden)
died at her home, at D'Hanis, after
a long illness Wednesday afternoon,
September 1, 1926, at 2 o'clock.
She was laid to rest at the W. O. W.
Cemetery, by the side of her deces-
ed husband, Christ. Batot, Friday
morning. Rev. Dean F. Mass per-
formed the last sad rites. Deceased
was born in Vandenburg, Texas,
March 6, 1847, therefore being 79
years, 5 months and 25 days. She
was married to Christ. Batot in
July 1866, her husband having pre-
ceded her in death.

Those surviving her are four sons
and four daughters, namely: Joe
Batot of Eagle Pass, Aug. Batot
of Del Rio, John Batot of D'Hanis,
Martin Batot of San Antonio, Mrs.
Annie Pingnot of Eagle Pass, Mes-
dames Agnes Stark and Theresa
Brotze of San Antonio, and Mrs.
Clara Huegele of Uvalde, 30 grand
children and 8 great-grand children.
one brother, Jno Brieden, of San
Antonio, and one sister, Regina Hue-

gele of Devine. A number of other
near and dear relatives mourn her
demise.

The deceased was a devout Chris-
tian, a loving mother, a kind and ac-
commodating neighbor, beloved and
respected by one and all who came
in contact with her. A large con-
course of mourning relatives and
friends escorted the mortal remains
to their last resting place. We join
this entire community in sympathy
with the bereaved and griefstricken
ones. May she rest in peace.

Card of Thanks.

We wish to thank all of the rela-
tives and friends who so willingly
assisted us during the long illness
and death of our beloved mother,
Mrs. Louisa Batot. All those who
attended the funeral and also for the
many beautiful floral offerings.

WESTERN GAS TO DRILL AGAIN IN MEDINA COUNTY.

Western Gas & Fuel Co. has plug-
ged and abandoned its No. 1 Chan-
dler in Medina County, south of the
Adams gas wells drilled by Hender-
son & Holden. The well got salt
water and oil and the company may
later drill again and make an effort
to bring in an oil well. The first
well was drilled for gas. The West-
ern Gas & Fuel has made a location
for a test for gas on a 25-acre tract
out of the Adams land, the location
being about a quarter of a mile
northwest of Henderson & Holden's
No. 1 Adams.

Witherspoon spudded in his No.
1 Adams with a light rig and is
changing now to a heavy rig. Golden
West has the derrick up for a test
in the center of a 39.8 acre tract
in the Adams land. The location
is in the center of a lease and less
than a quarter of a mile north of
Henderson & Holden's No. 3 Adams.
Western Gas & Fuel's No. 1 Adams
has set 175 feet of surface casing.
Ina Oil Company is preparing to
skid the rig on the Hoffman lease
in survey 535 in Medina County and
drill for the shallow showings at 320
and 828, which were passed up in
the first test. The No. 1 Hoffman
was abandoned at 12 feet into the
Edwards. It made a little sulphur
water.

Ina's No. 1 Finger is fishing for
an under-reamer at 822 feet. This
well had about 1,000,000 feet of gas
at 824 feet. This well is several
miles west of the Hoffman well that
is being abandoned. Golden West
Oil Company is at 1,035 feet in the
No. 1 Joseph Courand in Medina
County, southwest of Castroville and
the hole inclining to cave. Casing
will probably be set. It is said to
be in the Del Rio.—Thursday's Ex-
press.

Were I to have part in planning
for a national or international expo-
sition, I should make my first bow
to Texas and ask that she make
known her wishes concerning the
big show, not that Texas is hard to
please within reasonable limits, but
because the Lone Star state probably
excels any other state, according to
population, in educational travel.
They have the ambition and they
have the money to back their judg-
ment.

For example, I saw a personally
conducted party of 189 tourists in
Montreal, which represented ten
Southern states, and exactly 100 of
them were from Texas, and 89 were
from nine other states. Yet, the en-
tire party was organized by a Ten-
nessee institution.

"My hat's off to the South," said
a popular railroad official the other
day at Niagara Falls. "They believe
in seeing our country. They easily
surpass any other section for seeing
America first." Such was the ver-
dict of a man who watches hundreds
of thousands come and go with ev-
ery passing year. The South for
big records in travel, with Texas
easily in the lead.

Search any prominent register at
the sesqui and you will find Texas
names liberally sprinkled upon its
pages. Check up where you will in
any one of the five main palaces of
the centennial, and you will find
many loyal sons and daughters of
the Lone Star state in evidence; and
sometimes they are on the "glad
way" too; for the sunshine way is
the Texas way, whether seeing the
sesqui, or lassoing a Hereford on a
western ranch.

THE DALLAS NEWS TO OFFER BARGAIN.

We are in receipt of a letter from
The Dallas News, stating that its
Third Annual Reduced Rates Offer
will be announced not later than
December 1st. Once a year, The
Dallas News offers its readers an
opportunity to make substantial
saving on yearly subscriptions.
This is a sort of Christmas present

Good taste and good health
demand sound teeth and
sweet breath.

The use of Wrigley's chew-
ing gum after every meal takes
care of this important item of
personal hygiene in a delight-
ful, refreshing way—by clear-
ing the teeth of food particles
and by helping the digestion.

The result is a sweet breath that
shows care for one's self and con-
sideration for others—both marks
of refinement.

from The Dallas News to its read-
ers. Last year and the year before,
practically all of the old subscribers
availed themselves of this oppor-
tunity, and thousands of new readers
were added.

Among other things, The News
stated that it maintains the highest
priced news-gathering organization
in the Southwest. Its ten leased
wires, aided by an army of regular
and special correspondents, bring
the news from all parts of America
and the remote corners of foreign
lands.

This news, concerning the big
State newspaper, which has meant
so much to the growth of Texas,
will be of interest to the entire
reading public.

HONDO MAN INJURED WHEN CAR OVERTURNS.

O. C. Carter of Hondo was brought
to San Antonio Monday for treat-
ment, after he suffered injuries in
an automobile accident one mile
south of Lytle. At Kenney's Sani-
tarium, where he is a patient, it
was said he was suffering from
shock and that it is not believed
his injuries are serious.

Carter was riding in an automo-
bile with Mr. and Mrs. Strickland
when the car skidded on the wet
pavement, following a shower of
rain, and turned over. The Strick-

lands were not hurt.—Tuesday's Ex-
press.

Mr. Carter is the driver of the
steam roller on the road work west
of town.

What Is a Diuretic?

People Are Learning the Value of Occa-
sional Use.

EVERYONE knows that a lax-
ative stimulates the bowels. A
diuretic performs a similar function
to the kidneys. Under the strain of
our modern life, our organs are apt
to become sluggish and require assist-
ance. More and more people are
learning to use Doan's Pills, oc-
casionaly, to insure good elimina-
tion which is so essential to good
health. More than 50,000 grateful
users have given Doan's signed rec-
ommendations. Scarcely a commu-
nity but has its representation. Ask
your neighbor!

MRS. MATHILDE MECHLER.

Last Sunday evening the sad news was received here by relatives and friends that Mrs. Mathilde Mechler died at San Antonio at 7:00 P. M. August 29th, 1926, after a lingering illness.

Mrs. Mechler was born at Castroville on December 7, 1869 and therefore had attained the age of 56 years, 8 months and 22 days at the time of her demise.

On May 19th, 1890, she was happily married to Mr. Emil Mechler to which union four children were born namely, Miss Elizabeth Mechler of LaCoste, Mrs. Hildegard Franger of San Antonio and Frank and Albert Mechler of LaCoste.

She leaves surviving her, besides her husband and children, four sisters and three brothers, namely, Mrs. Emelia Merian of Yoakum, Mrs. Chas. Weik of San Antonio, Mrs. Henry Salzmann of LaCoste and Mrs. George Frey of Castroville, Messrs. Louis, Henry and Chas. Biediger of LaCoste.

Her body was brought out to LaCoste, Tuesday morning, August 31, 1926, by the Zizik-Kearnes Funeral Directors, and was taken to the home of Mr. and Mrs. Louis Biediger where it was viewed for the last time by many of her friends. At 9:00 A. M. the body was taken to St. Mary's Church where a Requiem High Mass was offered for the deceased. And after services in St. Mary's Cemetery, was tenderly laid to rest. Rev. James Marsollier performing the last sad rites of the Church.

A large concourse of sorrowing relatives and friends accompanied the body to its last resting place.

Pall bearers were Otto M. Naegelin, Martin and Robert Mechler, John and Arthur Biediger and Raymond Salzmann, all being nephews of the deceased.

We extend our sympathies to the grief-stricken husband, children and relatives in this their hour of sorrow.

RUDOLPH ZEINERT DEAD.

QUIHI NOTES.

Sunday service at Bethlehem Lutheran Church will be of more than usual interest. On this occasion a class of six boys will be confirmed and thus be admitted into the full membership of the Church. The service will be beautified by several selections by the church choir. The service will be in the English tongue and all are kindly requested to bring their English hymn books along. The church will be fittingly decorated for the occasion. All are cordially welcome.

Sunday afternoon at 2:00 o'clock, regular divine service will be held in St. John's Lutheran church of New Fountain. All are invited to this and all services in this church.

Sunday, Sept. 19th, the Holy Communion will be celebrated in Bethlehem Lutheran Church. All who desire to commune at this time are kindly requested to announce themselves to the pastor.

Next Saturday night, a lawn social under the auspices of the Luther League will be held at Bethlehem Lutheran Church. The program for the occasion contains several fine recitals by the church choir, a selection led by Mrs. Alfred Boehle, instrumental music by Mr. Frank Boehle, a selection by the Quihi Male Quartet led by Mr. Edwin Grell, declamations by Misses Ida Mae Fillemann, Anna Loesberg and Master Milton Balzen. Refreshments will be sold, as will also a number of prize packages, donated for this purpose. All are cordially invited to come and enjoy the fine program and other good things offered.

COTTON LEADS WOOL.

We read of sheep raising so much in this country that it is natural to assume that our wool production exceeds our needs. Yet approximately half the wool used last year in the United States came from other parts of the world. For while this country is second only to Australia as a producer of wool it heads the world's list of wool consumers. France has the honor of being second.

The United States used 538,000,000 pounds of wool last year and the proportion that was purchased from outside markets was approximately 130,000,000.

Wool, however, is not keeping pace with cotton in popularity. According to the Trade Record of the National City Bank of New York, the world production of wool last year was only five times that of 1820 while the use of cotton was twenty times as great as in 1820.

SANITATION SYSTEM SAVES PIGS.

Showing that from one to three more pigs per litter were raised when owners followed modern methods of swine sanitation, a report received by the United States Department of Agriculture results in Illinois is of special interest to hog men. The system of sanitation used was based on investigation of Federal scientists in control of roundworms and other parasites.

"In most cases," the report states, "as many pigs as usual were raised from one-third fewer sows, and over 95 per cent of the pigs saved at farrowing time were marketed."

More than 600 Illinois farmers used the method of swine sanitation last year and its popularity is spreading.

No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dipele the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

The best time to cut most grasses is as soon as they are well headed, says the United States Department of Agriculture. The millets and Johnson Grass should be cut as soon as the heads begin to show from the boot, but it is best for winter grains to stand until the seed is in the milk stage. Legumes like cowpeas and soy beans, in which the seed is an important part of the forage, should not be cut until the earliest pods begin to mature, but perennial legumes, such as alfalfa and the clovers, may be cut as soon as they are well in bloom. The best hay made from any crop is always that which is made the most quickly and with the least exposure to the sun and air. Too much exposure to the sun bleaches the hay, making it less attractive when placed on the market and also less palatable and less digestible.

TOWN WELL IN MEDINA COUNTY.

THINKS MEDINA WELL IN SERPENTINE.

Oklahoma, Sept. 7.—Chalk up a pool for Medina County, due west of San Antonio, Texas. Shermhorn Oil Company at its No. 1 Jungmann, three miles southwest of the Pearson, along the Southern Railway, had the Georgetown well at 1,632 to 1,646 feet and with 400 feet of fluid. The oil is around 32 and it is a beautiful greenish crude. The bailer is every five minutes and it lowers the fluid level. A. Matson, one of the Medina's most eminent geologists, official of the Shermhorn company, has just returned after a week at the Jungmann. He says that apparently oil is coming from the formation, the cuttings serpentine.

0 to 15 miles from the oil field, at the extreme of Medina and the west Texas Counties. When Mr. Matson for Tulsa, the liner was used to rerun with a packer bottom to shut off a fresh find found above the Georgetown. Apparently this has been done as messages say the fluid in the fluid is getting lower. Wednesday's Express.

STRONG IS DRILLING IN MEDINA

Mr. Strong's No. 1 Lacy in county, northwest of the Hondo, has spudded in. The formation there is Austin. The No. 1 King in the county and being drilled by the Shermhorn Oil Company is down with a 15-inch hole and is at 12½ inch casing to set the hole and will then drill. At 700, it is in the usual odor of oil. Express.

CITATION BY PUBLICATION

THE STATE OF TEXAS.

To the Sheriff or any Constable of Medina County, Greeting:

YOU ARE HEREBY COMMANDED, That you summon, by making Publication of this Citation, in some newspaper published in the County of Medina, for four consecutive weeks previous to the return day hereof, Standard Exploration & Producing Company, by service on its Agent and Manager, Jack White, a transient person, and A. M. White, whose residence is unknown, to be and appear before the Hon. County Court at the next regular term thereof, to be holden in the County of Medina, at the Court House thereof, in the town of Hondo, on the 4th day of October, A. D. 1926, then and there to answer a Petition filed in said Court, on the 21st day of June, A. D. 1926, in a suit numbered on the docket of said Court No. 669, wherein W. J. Bendele is plaintiff and Standard Exploration and Producing Company and A. M. White are defendants.

The nature of the plaintiff's demand being as follows:

Suit on account of labor performed by W. J. Bendele, C. F. Haass and Richard Haass for the defendants, aggregating the amount of \$655.00, and foreclosure of Laborer's or Mechanic's Lien on following property, to-wit: A rotary drilling rig, together with all tools, implements and other necessary articles for its use in drilling oil and gas wells, also 1100 feet drill stem, 600 feet of 6 inch casing, 8 bits, 1100 feet of water line, 300 feet of oil line, 1 five horse power Samson gasoline engine, 1 three horse power Samson gasoline engine, 1 jack pump outfit, 1 water pump, 1000 feet of tubing and rods, 1 50-barrel fuel tank, all of which is located on a tract of 300 acres out of Survey 31 and 33, J. Degeant and N. B. Rogers, situated in Medina County, Texas.

That C. F. Haass and Richard Haass transferred their account to W. J. Bendele.

Plaintiff prays for citation, judgment for aforesaid three accounts, interest, foreclosure of laborer's and mechanic's lien, costs of court, etc. HEREIN FAIL NOT, And have you before said Court, on the said first day of the next term thereof, this Writ, with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Hondo, Texas, this 2nd day of Sept. A. D. 1926.

Run-Down gave out easily

"MY health wasn't any account at all," says Mrs. H. L. Cayton, of Washington, N. C. "I would start to do my housework and I would give out before I had done anything at all. I did not have any strength, and if I did the least thing it seemed to tax me so I could not finish. I was run-down sure enough. Several of my friends had taken Cardui and they said to me, 'Why don't you try it?' I knew I needed something to build up my general health and to increase my strength. Finally one day when I was recovering from a spell of sickness, I decided to try Cardui. I got a bottle and began to take it. I could notice that I was improving as my appetite got better and I did not give out nearly so quick. I took several bottles and I felt lots better."

"Two years ago I decided to take it again. It built me up and made me feel like a different person. It is the greatest medicine for women that I know anything about."
